

Glowpoint's "Instant Video Everywhere" Service (IVE)

IVE provides feature-rich video communications - perfect for business professionals, home office workers and travelers. IVE is a personal video communications solution for virtually "anytime, anywhere" communications over a broadband connection - at your office desktop, in a home office, airport lounge, hotel room, coffee shop and more.

IVE is the new *Instant Video Everywhere* service powered by Glowpoint.

POWERED BY GLOWPOINT

Desktop Video Conferencing

At the Office. In the Home. On the Road.

Enabling business professionals, home office workers and travelers to **communicate better** around the world.

1

Easy To Use

Business quality service that's as easy to use as a telephone!

2

Unlimited Use

Unlimited video calls from your PC to anyone, anywhere!

3

Exclusive Features

Your own Direct Dial Video Number, Live Video Operators, Video Mailbox, and more!

Leverage the power of your PC with the most versatile video conferencing service available today.

FREE Plans Available - visit www.instantvideoeverywhere.com to learn more!

IVE moves video communications from the conference room to the desktop - and beyond.

With IVE's "All You Can See" Unlimited Video Calling Plans, your entire company can communicate with each other, with customers and with partners quickly and easily.

- » Integrate video throughout your conference rooms, offices and remote locations
- » Enable your sales team to meet face-to-face with each other and with customers
- » Connect remote staff and home office workers to the business
- » Reduce costs and down-time associated with travel

IVE™ Advanced Technology - Access and Ease of Use

Designed to leverage other SIP-based products, providing future integration opportunities with instant messaging and presence capabilities.

Advanced SIP based architecture incorporates the first fully deployed SIP to H.323 gateway, enabling any user of IVE to see and talk to virtually anybody, anywhere regardless of device.

"Follow Me" video technology allows users to be contacted at the same 10-digit Direct Dial Video Number they use for video in the office while on the road.

Call IVE to IVE, IVE to IP, IVE to ISDN... IVE can connect with virtually any other video conferencing system, including: Sony, Polycom, TANDBERG and others.
