Glowpoint Conferencing Services

Allow us to bring your meetings together regardless of the number of participants attending, or the equipment they use. Whether users are on the Glowpoint Network, ISDN, Public IP, telephone or even a cell phone - Glowpoint makes the connection.

Video Conferencing

Seamless connectivity regardless of where you are or how you connect.

- **Reserved** - 24 x 7 reserved video conferences.
- **Bridging On Demand (BOD)** - Reservationless connectivity for up to six sites. Available to all Glowpoint network customers.
- **High Definition (HD)** - The industry's first HD multi-point service. Available in Reserved and BOD.

Streaming

Present video, audio and content through the web for greater audience reach. Streaming services provide you with live event recording, remote participation and distribution services.

Audio Conferencing

Affordable services designed to meet your audio conferencing needs.

- **Attended** - A live operator service greets callers and places them into the conference.
- **Unattended** - A reserved audio conference is accessed by dialing a unique access code.
- **Conferencing On Demand** - Enables callers to initiate an audio conference without a reservation.

Event Management

Event management services provide a full range of solutions to support your conference needs. Audio conferencing, satellite broadcasting, room rental capabilities, and streaming are just a few of the services available.
